Announced Audit

AUDIT SCOPE:

There is a pre grade line that is not considered part of this audit, it was not running at the time of the audit. This audit is for a raisin dehydrator. The process involves the receiving, dip tank, high pressure rinse, sorting belt, hot tank wash, rinse/shaker, placed on a tray that is placed into Sulfur Dioxide for approximately 8 hours, then placed into a dehydrating rooms for approximately 48 hours, the shaken to remove raisins from the vines, vacuum for any loose materials, placed into bins and sent on for further processing. There are no CCPs or anti microbials used at this location. The raisins from this location are not considered edible until further processing occurs which does not happen at this location. The dehydration part of this audit only happens for a few months, there is storage and distribution of raisins all year. They are using their own grapes and they do subcontract work for another supplier which is not their grapes, only dehydrate the grapes for them.
